A. IDENTIFICATION OF PLANT MATERIALS (200 POINTS PER CONTESTANT)

Participants will identify forty (40) items selected from the provided list covering the following categories:

- Plant materials will be presented as intact, live specimens, photos, plant parts or any combination.
- Each specimen will be designated by a station number. When the participant identifies the item, its name is then located on the identification list. The participant then records the number by that name on a scan form at the respective station number.
- Each participant will be provided a copy of the list at the event site. No specimens or items may be touched or handled in any way.

Participants will record their answers using the scan form. Participants will be given forty-five (45) minutes to complete the practicum. Each specimen will be worth five (5) points.

B. IDENTIFICATION OF PESTS, DISORDERS AND BENEFICIAL INSECTS (50 POINTS PER CONTESTANT)

Participants will identify ten (10) items selected from the provided list covering the following categories:

- Pests and disorders will be presented as a damaged specimen, photograph or preserved specimen, herbarium sheet, insect

mount, etc. A “disorder” label will be with an item to designate identification of a problem rather than the plant.

- Beneficial insects and other organisms that benefit the landscape by feeding on harmful organisms.
- Each specimen will be designated by a station number. When the participant identifies the item, its name is then located on the identification list. The participant then records the number by that name on a scan form at the respective station number.
- Each participant will be provided a copy of the list at the event site. No specimens or items may be touched or handled in any way.

Participants will record their answers using the scan form. Participants will be given 10 minutes to complete the practicum. Each specimen will be worth 5 points.

C. IDENTIFICATION OF EQUIPMENT AND SUPPLIES (50 POINTS PER CONTESTANT)

Participants will identify ten (10) items selected from the provided list covering the following categories:

- Equipment and supplies will be either an intact item or photograph.
- Each specimen will be designated by a station number. When the participant identifies the item, its name is then located on the identification list. The participant then records the number by that name on a scan form at the respective station number.
- Each participant will be provided a copy of the list at the event site. No specimens or items may be touched or handled in any way.

Participants will record their answers using a scan form. Participants will be given ten (10) minutes to complete the practicum. Each item will be worth five (5) points.
