

Situation Map

Carrying Capacity (Total AUMs +/- 5): 180 AUMs

Stocking Rate (Compare stocking rate of animals grazed to calculate carrying capacity above.) (Check one box.)

- Increase
 - Decrease
 - Keep the same
-

Recommended Management Practices:

- Continue present management
- Develop water
- Develop fence
- Burn or mow old growth
- Move salt and mineral
- Reseed (full seed) specific areas
- Interseed specific areas
- Control blowouts and gullies
- Apply woody canopy control
- Control noxious weeds
- Change season of use
- Defer part of grazing season
- Defer one growing seasons
- Defer two or more growing seasons
- Begin a planned grazing system

Total Points: 300

- Carrying capacity: 50 points
- Stocking rate: 100 points
- Recommended management practices: 150 points
 - o Each practice worth 10 points
