

## ND FFA SMALL ANIMAL CARE CDE

### *Identification Scantron Sheet Codes*

**INSTRUCTIONS:** Use the following codes listed in the table below to indicate your choice of the breed or equipment shown in the Power Point presentation. Be certain to darken the circles completely. If you need to change your answer, also make sure that you ERASE the darkened circles thoroughly, so the machine will read your new answer correctly. Each correctly identified breed or equipment is worth four points.

| ID Code        | Dog Breeds                    | ID Code        | Fish Breeds           | ID Code        | Parasites                     |
|----------------|-------------------------------|----------------|-----------------------|----------------|-------------------------------|
| 101            | Australian Shepherd           | 204            | Angelfish             | 179            | Anchor worm                   |
