**Enterprise | Nursery Operations Placement; Greenhouse Management; Vegetable Production**

**Ag Teacher(s) | Troy Enga, Stephen Wharton, Emily Casner & Lance VanBerkom**

## College Stats

**Major | Biological Sciences**

**School | North Dakota State University**

From Minot, North Dakota, Makayla Kraft serves as the 2025–26 North Dakota FFA State Vice President. The daughter of Josh and Becky Kraft, Makayla is a member of the Minot FFA Chapter and has been actively involved in leadership and career development opportunities throughout her FFA journey.

Makayla's Supervised Agricultural Experiences (SAEs) include nursery operations placement at Lowe's Garden Center, serving as the greenhouse manager for her high school program, and a vegetable production project she helped expand from a 30'×50' garden to a 100'×50' plot. Through these projects, she developed skills in plant care, customer service, greenhouse management, and food production, while also sharing surplus produce with members of her community.

Makayla has participated in several CDEs and LDEs, including Creed Speaking, Parliamentary Procedure, Advanced Quiz, Memorized and Extemporaneous Public Speaking, Agronomy, Meats Judging, Farm Agribusiness Management, and Dairy Cattle Handling. Agronomy was her favorite event, and one of her favorite FFA memories was traveling to National FFA Convention with her chapter.

Makayla plans to continue her education at North Dakota State University, majoring in Biological Sciences. She chose to serve as a state officer to give back to an organization that built her confidence, connections, and opportunities, and she hopes to be a role model for members across North Dakota.
